## Certified Segway Training

### Certified Instructor Course

This 2-day course is designed to train qualified individuals and certify them as authorized Certified StreetSmart Segway Training Instructors. It will increase both knowledge and skill when utilizing the Segway PT in the public safety sector with strong emphasis on risk management concepts, enhanced awareness of rider ability, and specific teaching methods to help communicate this knowledge to others. Those who complete the class will then be allowed to train and certify others as Certified Riders.

#### Pre-Requisites

- Must be a Certified Rider in good standing.
- Must have at least 80 hours of total riding experience, 40 of which while on duty.
- Must be associated with a legally recognized public safety organization or security company.

#### StreetSmart® Training Program Criteria

- All Certified StreetSmart Training Instructors will commit to following all policies and procedures outlined in the StreetSmart Training Instructor Manual.
- To maintain *Active* Instructor Certification, each Instructor must maintain Rider Certification status, log at least 40 hours on the Segway PT each year, OR 3 hours within 7 days of teaching, and teach a Rider Certification Class within the 3 year period.
- The materials contained in the StreetSmart Training Instructor Course are copyrighted and may only be used with permission. To maintain the integrity of the StreetSmart Training Program, all Rider Training Classes must utilize the same materials. You must copy and assemble your Student Materials Packet from the download provided on the Instructor's Page on our website or purchase it directly from StreetSmart.

- All Certified Rider Training class rosters and paperwork must be submitted to StreetSmart within 21 days of class completion.
- Instructor Certification will be valid for a three year period. As long as you have *Active* status at the end of the three years, recertification may be done online for no additional cost.
- Instructor Course fee is \$600 per person. Fast Track Course is \$750 per person (Rider Class plus Instructor Course in 3 consecutive days)
- StreetSmart will support individual department policy on any restrictions they may impose on Instructors teaching outside their own department.

### **StreetSmart Training Instructor Course Points**

- Covers extensive risk management and liability issues and concepts related to Segway PT operations in public safety.
- Addresses all three learning styles for teaching adults effectively plus classroom considerations.
- How to incorporate the Rider Training materials into class instruction.
- How to recognize and utilize your surrounding environment as a StreetSmart Training course, identify any possible obstacles, plus additional training aids.
- How to differentiate between rider and machine error.
- Teaches how to recognize and correct improper riding techniques.
- Maintenance, repair and error diagnosis.

A completed application and course fee for each person attending must be submitted to:
